

WL30

High-performance water dispenser

The WL30 offers a large dispense area and fast dispense rate making it ideal for offices, breakrooms, and warehouse environments.

Advanced technology:

High performance filtration
Configured with 5-stage reverse osmosis or 4-stage micro-filtration.

In-tank LED UV
In-tank LED UV technology helps maintain system cleanliness.

Surface protection technology*
Key surfaces are infused with surface protection technology, inhibiting the growth of odor and stain-causing microbes.

Number of users: Up to 35 users

*Surface protection technology protects surfaces from odor and stain-causing microbes. It does not protect users against bacteria, viruses, germs or other disease causing organisms. This technology is not a substitute for good cleaning practices.

Features

Reverse osmosis with mineral add back or 4-stage micro-filtration

Quick-change filtration system allows for easier filter changes and fewer fittings

Gravity-fed stainless steel storage tank

Fast cold water dispense rate is double the rate of a traditional cooler

Equipped with internal air filter to minimize airborne contaminants

Float-style leak detection system to reduce the risk of leaks and provide peace of mind

LED UV indicator light lets users know their water is always fresh and clean

Technical specifications

Dimensions

50.3" (h) x 11.8" (w) x 17.8" (d)

Dispense area height

11"

Weight

58 lbs

Filtration options

5-stage reverse osmosis or 4-stage micro-filtration

Storage capacity

Cold tank: ~ 1.6 gal

Hot tank: ~ 0.5 gal

Rated Voltage / Frequency

110V/60Hz @ 4.9 amps

Water temperatures settings

Default Cold Settings: 37°F/41°F

Default Hot Setting: 185° F

Dispensing method

Capacitive touch sensor

Temperature options

cold hot

Purification process*

Sediment Filter

Reduces particles such as dirt, silt, rust, and pipe residue.

Pre-carbon Filter

Reduces chlorine and chemicals.

Reverse Osmosis Membrane

Reduces dissolved solids, pharmaceuticals, and metals.

Mineral Add-Back Filter

Adds minerals, electrolytes, and enhances alkalinity.

Post-carbon Filter

Final polishing filter ensures great taste.

*Also available in 4-stage Micro-Filtration: Sediment Filter, Pre-Carbon Filter, Lead/Cyst CBC Filter, and Post-Carbon Filter.

Tested and certified

The Waterlogic WL30 systems are certified by IAPMO R&T against NSF/ANSI/CAN 61: Q1, NSF/ANSI/CAN 372 and CSA B483.1 for the specific performance of material safety, structural integrity, and lead-free requirements as verified and substantiated by the test data. The WL30-M System is also certified to NSF/ANSI-53 for the reduction of Lead and Cysts, and NSF/ANSI-42 for the reduction of Chlorine and Taste & Odor when using the Waterlogic WLLR-12 filter. The Waterlogic WL30-RO system, when used with the WLPC-12 and WLRO-1280 or WLRO-12150 filters, is also certified by IAPMO R&T to NSF/ANSI 58 for the reduction of the following substances, as verified and substantiated by test data: Chlorine, Taste & Odor, Pentavalent Arsenic (less than 50ppb reduction), Cyst, Lead, Total PFAS, TDS, and Turbidity.

Do not use with water that is micro-biologically unsafe or of unknown quality without adequate disinfection before or after the system.
