S4

Touchless sparkling water dispenser

A sparkling unit with advanced hygiene protection

With ambient and hot water and your choice of ice-cold still or sparkling water, the S4 is the perfect water solution for all your hydration needs. This compact, professional machine provides your workplace superior hygiene technology to protect the health of your employees and provide great-tasting water all day long.

Innovative technology

Antimicrobial Technology
Utilizes silver ion antimicrobial technology on the dispense point to reduce the spread of bacteria and viruses for safer and more hygienic dispensing

Four-stage purification process
Reduces particles such as dirt, silt, rust, and pipe residue as well as reducing chlorine, chemicals, pesticides, and odors to ensure great tasting water glass after glass

Ice bank cooling technology
Allows for high-volume production of ice-cold filtered still and sparkling water

Sleek and stylishly refreshing

This modern unit is designed with a glass front, scratch-resistant panels, and touch-free activation for easy cleaning and hygienic control. Designed with superior chilling capacity, it provides glass-after-glass of ice-cold restaurant quality sparkling water.

Features

Hygienic touchless dispensing with anti-microbial protection on dispense point

Temperature indicator lights on dispense illuminate blue for cold, red for hot, and green for ambient

Removable dispense nozzle and glass front for easy cleaning

Large 11.25" dispense area

Low CO_2 indicator light

Improved leak stop technology
